

eBILLINGHUB AND iTIMEKEEP INCREASE YOUR E-BILLING EFFICIENCY AND COMPLIANCE

THE POWERFUL COMBINATION OF eBILLINGHUB AND iTIMEKEEP YIELDS POWERFUL BENEFITS YOUR FIRM

- Easy time entry, validation, and submittal for fee earners makes e-billing better and more efficient.
- Fewer billing errors due to validation of bills before submission
- Free up time for finance staff during the pre-bill phase with time entries that are correct the first time

With increasing pressure to streamline billing efficiencies and capture every single billable moment, firms must find any and all feasible ways to improve the workflow between lawyer and client. e-Bills need to be more efficiently generated to shorten the bill-to-payment cycle, ease the burden on billing staff, and increase billing compliance. Now, eBillingHub and Bellefield Systems have teamed up to help your firm meet these goals.

If you already have eBillingHub, you know it dramatically simplifies the e-billing process by generating e-bills in the proper format, validating them against corporate clients' guidelines, submitting them to the appropriate legal spend management system, and tracking their status, all through a single portal. Intuitive and easy to use, Bellefield Systems' iTimeKeep solution was recently ranked by ILTA as the most adopted Mobile Time Entry solution for attorneys.

Now, iTimeKeep combined with eBillingHub further streamlines your billing process. Billing guidelines sourced directly from eBillingHub are used to validate time entries in iTimeKeep instead of later in the billing process.

By taking advantage of the integration between eBillingHub and iTimeKeep, you can move ahead to a more efficient and profitable future, confident that you are working with industry leaders in the fields of electronic billing and time entry for law firms.

BELLEFIELD SYSTEMS

Bellefield is committed to helping lawyers improve their work lives by developing innovative and intuitive applications that solve real-world challenges. Bellefield's flagship product iTimeKeep is a game-changing mobile application that simplifies time entry providing attorneys the ability to easily get the job done anytime and everywhere with their mobile devices or favorite browser.

eBILLINGHUB AND iTIMEKEEP INCREASE YOUR E-BILLING EFFICIENCY AND COMPLIANCE

Enabling lawyers to enter and validate their time with an integrated iTimeKeep and eBillingHub package saves time, increases e-bill accuracy, and speeds up the time to payment for law firms.

REAL-TIME COMPLIANCE , FEWER REJECTIONS, FASTER PAYMENTS

Easy Steps for Tracking and Submitting Billable Time

The integration between iTimeKeep and eBillingHub provides lawyers with mobility so they can enter and validate time when they are out of the office. The iTimeKeep app can be downloaded to a favorite device or operating system, and opening and submitting a new timecard is done from the iTimeKeep dashboard.

1. By pressing the Matter button, iTimeKeep automatically retrieves all of a particular lawyer's matters from your time and billing system in real time, along with task and activity codes.
2. iTimeKeep timers help you track and record your time easily and accurately.
3. A built-in voice-to-text tool enables users to submit information verbally.
4. Tap the "submit" button on the dashboard to submit and validate your time.

Streamline the Validation Process

The integration of iTimeKeep with eBillingHub puts the know-how where it belongs: on the fee earner. By enabling your lawyers to become part of the e-billing process, accounting and support staff no longer need to spend numerous hours problem solving.

Eliminate Costly Problem Solving by Finance Staff

With time cards entered by fee-earners via their mobile devices and automatically validated against clients' billing guidelines sourced from eBillingHub, the result is fewer billing errors that lead to rejections. For the finance staff—those in areas such as accounting and support—the time spent fixing entries before and after they are rejected by clients is cut dramatically.

A Win-Win for Everyone

The entire firm benefits from the eBillingHub and iTimeKeep integration with a better and more effective prebill review process, more accurate time entry, increased accuracy at the moment of billing, and faster approval and payment processing. Accounting and finance staff experience time savings and increased efficiencies, clients are satisfied with more accurate bills, and your firm speeds up time to payment as a result.

YOUR PARTNER FOR E-BILLING SOLUTIONS

Designing the first tool to automate solutions for the law firm e-billing process, eBillingHub has been delivering solutions to hundreds of law firms since 2004. It is now the established leader in simplifying the e-billing process for law firms worldwide.
